STAR-STUDDED AFFAIRS

Sparkling diamond jewelry is often compared to stars. Not only is this an apt metaphor, it speaks of the romance that surrounds both the fiery gemstone and heavenly nights. It should come as little surprise, then, that diamond jewelry with celestial motifs hardly ever goes out of style and remains a surefire bet to send women and girls over the moon. A five-pointed star is a favorite design that lends itself to diamond jewelry ranging from earrings and rings to bracelets and necklaces. Equally stunning is the cusp-of-the-moon motif, which is particularly favored for pendants that are worn on special nights out. In fact, there are hardly any heavenly inspired pieces of diamond jewelry that are possible to resist.

We have an extraordinary collection of top quality certified diamonds, diamond engagement rings, custom designs and fine diamond jewelry.
